Dear Heather,

The Strong Neighborhoods Business Plan Update is scheduled to be presented for approval to the City Council/Redevelopment Agency Board at the Tuesday, August 10th City Council meeting.

The community process to identify the four goals of the business plan update has been a robust and dynamic process spanning eight months with hundreds of community leaders and staff who helped shape the updated goals of Strong Neighborhoods. We are proud to be presenting a Strong Neighborhoods Business Plan Update that will lay out our shared vision of a Strong Neighborhoods that:

**Removes Barriers to Neighborhood Action
Stabilizes Neighborhoods in Crisis
Mobilizes Neighborhood Action and
Connects Resources to Priorities.**

The Strong Neighborhoods Business Plan Update Memo was presented to the Neighborhood Services and Education Committee in June.

A supplemental memo has been drafted in preparation for the Strong Neighborhoods presentation on Tuesday to City Council/Redevelopment Agency Board.

On behalf of the staff of Strong Neighborhoods, thank you for your input and leadership throughout the Business Plan Update process. I will keep you updated about the outcome of the presentation to the City Council/Redevelopment Agency Board and our next steps together in Strong Neighborhoods' evolution.

In Collaboration,

Kip Harkness

Strong Neighborhoods Business Plan Update Next Steps:

August 10

Presentation of the Strong Neighborhoods Business Plan Update to the City Council/Agency Board for approval.
